
Stalker Soc Fast Travel

For STALKER: Shadow of Chernobyl on PC, there is a thread on the GameFAQ message board called Is there any mod for "fast travel"? This way, modders can include cars in the game. Not only vehicles, but also mutant codes. If you are looking for a fast way to get around, then you have found it. And if you are looking for a way to bypass the "auto search" system, then that too. I've been playing games since 2004 and just now found out that you can turn off auto search in games. I says the author of a game called Stalker-gsc. I was so shocked that I started looking for information on how to do it right. Then I read that there are special absenteism for this, but I was too lazy to install them, and I just did it myself.
